

Specialist Signage

Good clear signage in residential care and nursing homes is a benefit to all and helps residents, especially people living with dementia or sight problems, to function more effectively. GERATEC offers a range of eye catching, purpose designed signs in which universally recognised images are reinforced by simple wording in a clear typeface with bright colours. With safety in mind, all signs have smooth edges, rounded corners and measure 280mm wide x 140mm tall at a cost of R50 per sign, all inclusive.
